

# 19th International Symposium on Electromagnetic Fields in Mechatronics, Electrical and Electronic Engineering

29-31 August 2019, Nancy - FRANCE

## Call for Special Sessions

### Special Session on Electromagnetism in Medicine and Bioengineering

organized and co-chaired by:

Andrzej Krawczyk, Polish Society of Applied Electromagnetism, Poland.  
ankra.new@gmail.com

Maria Evelina Mognaschi, University of Pavia, Pavia, Italy, eve.mognaschi@unipv.it

## Call for Papers

The session will be co-chaired by [Dr Maria Evelina Mognaschi](#) from Italy and [Prof. Andrzej Krawczyk](#) from Poland.

Besides the presentations it will contain the panel discussion or round-table discussion in order to enable favourable exchange of ideas and thoughts on the problems presented within the session. Another aim of the session is further and more intensive engagement in spreading the results of research in the area of question, i.e. the dyad: electromagnetic field and biological organism.

Papers dealing with the following problems of:

- Biological and physical foundations of bioelectromagnetic interactions
- Medical applications of electromagnetic field
- Bioelectromagnetic hazard
- Applications of electromagnetic field in bioengineering (agriculture, veterinary medicine, food industry etc.)
- Simulations of electromagnetic field in biological matter

are especially welcome but some innovative topics are admitted too.

The papers submitted to this special session are under the same procedure for all conference publications as other papers submitted to ISEF2019.

The Organizers would express hope that the debates during the special session will lead to the establishment of the initiative group expected to continue the discussion and to constitute the forum for all interested in the issues, giving them the opportunity to present their ideas. We will aim at working out our mutual standpoint published in the special report formed on the basis of the session presentations and debates.

Depending on the number of papers we will receive the session will be organized as oral or/and poster.

We look forward to receiving your contributions.

Maria Evelina Mognaschi

Andrzej Krawczyk

**Submission of papers:**

Final deadline is as for the conference papers

All the instructions for paper submission are included in the conference website:
